Stainless Steel Adaptors

Adaptors

Precision 316 Stainless Steel Luer Adaptors

- Made of rugged 316 stainless steel
- Final assembly water tested at 45 psi

Catalog No.

BS4 72-5166

These precision 316 stainless Luer adaptors are ideal for connections that are exposed to harsh chemicals environments. These 316 adaptors are precision manufactured to meet ISO

594 specifications and are offered in a variety of styles to satisfy many applications. Each one is uniquely designed to facilitate easy cleaning and maintenance. They are supplied individually.

PEEK™ Luer Adaptors

- Made of inert PEEK™
- Quick, leak-proof connection
- Economical

Made of inert PEEK™ and designed for quick, leak-proof connections. These adaptors are economical and provide for flexibility of connection for a variety of thread configurations. These adaptors are available in a vari-

ety of configurations. Select the adaptor based on your requirements.

Micro-Mate® Adaptors

- Made of rugged 316 stainless steel
- Final assembly water tested at 45 psi

316 stainless Micro-Mate® female Luers adaptors can handle harsh chemical environments and feature a special thread designed to reduce the stripping of threads which

occurs when metal Luers are mated with plastic Male Luer Lock adaptors. Micro-Mate® Luers meet ISO 594 specifications and facilitate easy cleaning and maintenance. These adaptors are supplied individually.
